

# ASTARO MAIL ARCHIVING DATASHEET

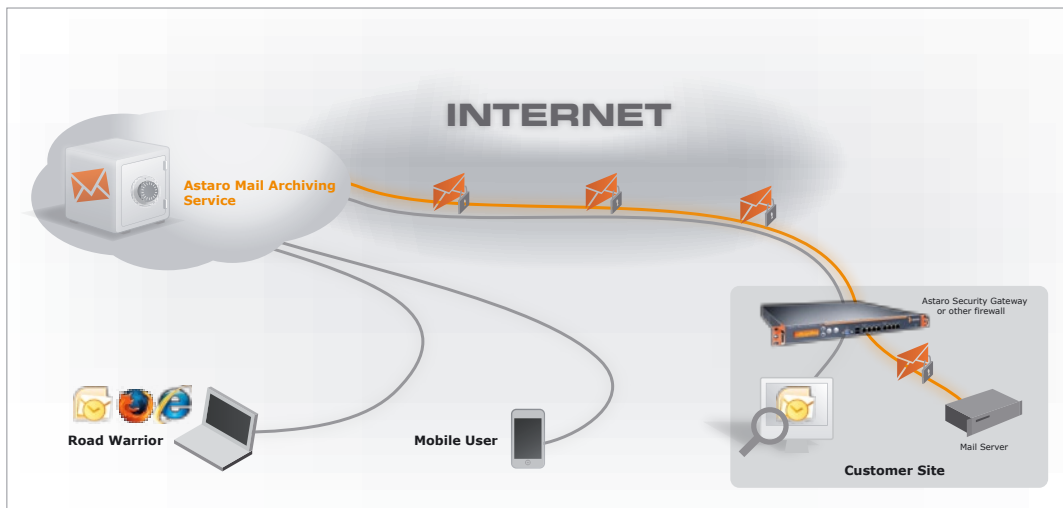

## Make Archiving Your E-Mail Our Problem

Every business is facing legal or industry compliance regulations leading to the requirement to archive e-mails – a challenging task for all IT administrator! E-mail volumes are still growing, causing mail servers to suffer from the heavy load and forcing end-users to struggle with mailbox full warnings. Astaro solves this by offering a cloud-based e-mail archiving service that is easy to setup, accessible from everywhere and scales with your growth.

### Join Now!

Register for the BETA and start archiving today:  
[www.astaro.com/en/ama-beta](http://www.astaro.com/en/ama-beta)

### Benefits

- › Setup your archive in less than 15 minutes
- › No more „mailbox full“ hassles
- › Find e-mail instantly with Outlook Archive Search
- › No employee training needed to access their personal archive
- › Meet compliance rules
- › No hardware maintenance and upgrade

### COMPLY

#### Secure Archive

Store all e-mails and attachments encrypted and digitally signed on our servers.

#### Unlimited Retention Time

Keep all e-mails as long as you like or must—define a retention policy suitable for your business.

#### Auditing

4-eyes e-mail discovery and audit logging for a transparent and traceable audit process.

### OFFLOAD

#### Unlimited Storage

Avoid scalability issues through unlimited storage in the archive.

#### PST-File Import

Personal archive files can be uploaded into the archive. Centralization at no additional cost.

#### Zero Administration

Reliable cloud service frees administration resources—no updates, no hardware maintenance, no backup.

### FIND

#### Fulltext-Search

All e-mails and attachments are indexed and accessible through a google-like search.

#### Outlook Plug-in

Seamless Outlook integration makes searching the archive as easy as writing an e-mail.

#### Web Search

Users can search and access their e-mails from everywhere through a centrally hosted webportal.

*„Since we implemented the Astaro Mail Archiving Service, I am able to delete many more e-mails as the archive system works in the background—taking the load off my inbox. The fast and effective e-mail search is by far my favourite feature through the Outlook plug-in.“*

*Andreas Kuchenbuch,  
Owner
